

AIRBENDER ALONE

ANJALTS

I was alone with my heart
I never thought we'd pull apart
I never wanted to go
But you don't show
Oh oh oh

You like what you know
In this heart
I couldn't show

CHORUS

I wish that I could end this
There's something I keep
missing
I'm just an AirBender Alone
I could just be hiding
You could just be lying
Just breathing air on the phone

Ooh ooh ooh ooh
Ooh ooh ooh ooh
Ooh ooh ooh
I was on

You keep saying it's alright
And I keep playing up all night

You just don't how I feel
In your world
I'm not free

You want what you want
I need to get out
CHORUS

I wish that I could end this
There's something I keep
missing
I'm just an AirBender Alone
I could just be hiding
You could just be lying
Just breathing air on the phone

(Guitar solo)

You want what you want
I need to get out

CHORUS

I wish that I could end this
There's something I keep
missing
I'm just an AirBender Alone
I could just be hiding
You could just be lying
Just breathing air on the phone

I wish that I could end this
(ahh ahh)
There's something I keep missing
I'm just an AirBender Alone
I could just be hiding
You could just be lying
Just breathing air on the phone

I wish that I could end this
(ahh ahh)
There's something I keep missing
I'm just an AirBender Alone
I could just be hiding
You could just be lying
Just breathing air on the phone
