DIM THE LIGHTS

ANJALTS

Now We had some time
To figure out
Why everybody's
Loosing their minds
And I'm not so sure
But you had to throw
My phone out the window
Tonight

Do you -think of me
When you're gone
Do you -think of where
I belong
No no no
You just can't go pass
All the rage in your eyes

Dim the lights down low
C'mon let's go slow
Let's just slow dance
It's the one thing we know
We got right

Dim the lights down low
C'mon let's go slow
Let's just slow dance
All night and in time
We'll feel alright

I'm waiting here
For you to come
And apologize for everything
And I know you're wrong
But maybe I couldn't forget
All the things you said

Do you - think of me
When you're gone
Do you -think of where
I belong
No no no
You ...have to calm down

Dim the lights down low
C'mon let's go slow
Let's just slow dance
It's the one thing we know
We got right

Dim the lights down low
C'mon let's go slow
Let's just slow dance
All night and in time
We'll feel alright

(Guitar solo section)
Ooh ooh turn the lights down

BRIDGE
And I..I love you so
Don't u know
Don't u know
By now
And I ...I want you close
I love u most
Don't you know
By now

CHORUS
Dim the lights down low
C'mon let's go slow
Let's just slow dance
It's the one thing we know
We got right

Dim the lights down low
C'mon let's go slow
Let's just slow dance
