

EVERY BREATH

ANJALTS

If I could
Give you the reason
Tell you my feelings
In this hazy sphere

But I know
so little about you
You don't even give
A glint to who you are

There's nothing I could ever
change your mind
To let me breathe again
Only when you're around me
Baby ur Around me

CHORUS

You're in every breath I take
You're in every thoughts I make

You're in every breath I take
You're in every thoughts I make

If I could
Tell you my feelings
Tell you everything
That could ease
Your suspicious mind

If I could
Tell it's all real
Take away your fears
Into this other Earth

There's nothing I could ever
change your mind
To let me breathe again
Only when you're around me
Baby ur Around me

CHORUS

Ur in every breath I take (every
breath)

Ur in every thoughts I make
(Every thoughts)

There's nothing I could ever
change your mind
To let me breathe again
Only when you're around me
Baby ur Around me

ah ah
You're in every breath I take
(every breath)
You're in every thoughts I make

ah ah
You're in every breath I take
(every breath)
You're in every thoughts I make

You're in every breath I take
(every breath)
You're in every thoughts I make
