

FIRE IN THE RAIN

ANJALTS

Changing my mind
I'm changing my mind
When I see you crying

I'm losing this fight
I'm losing this fight
On my own

Who really wins
Or who really lose
When we are all dying

We have to
Change it up fast
Or we cannot last
Anymore

I'm wondering where you've gone
Are you out there all alone
In this fields of lies
A billion times
deceptions

The real prize was always inside
you
Don't let anybody tell you
anything
You know it ain't true

CHORUS

(Ooh)

Don't start the fire in the rain
Don't cover away the pain
it doesn't go away

(Ooh)

Don't start the fire in the rain
Don't throw away your pain
One day you'll win it

Who really wins
Or who really lose
When we are all dying

We have to change it up fast
Or we cannot last anymore

I'm wondering where you've gone
Are you out there all alone
In this fields of lies
A billion times
deceptions

The real prize was always inside
you
Don't let anybody tell you
anything
You know it ain't true

CHORUS

(Ooh)

Don't start the fire in the rain
Don't cover away the pain

it doesn't go away

(Ooh)

Don't start the fire in the rain
Don't throw away your pain
One day you'll win it all

Chorus

(Ooh)

Don't start the fire in the rain
Don't cover away the pain
it doesn't go away

(Ooh)

Don't start the fire in the rain
Don't throw away your pain
One day you'll win it all

Chorus

(Ooh)

Don't start the fire in the rain
Don't cover away the pain
it doesn't go away

(Ooh)

Don't start the fire in the rain
Don't throw away your pain
One day you'll win it all
