

ANJALTS

OH SO COLD OUTSIDE

Ooh ooh ooh

There was never a kind of
place
That I could always erase
From this kind of grace

I could quit going outta place
But there's always you
Pulling me
Back in your grace

(Ooh ooh)
There was never the kind of
love
I could ever forget
You just brought this kind
Of love

Chorus
(Ooh ooh)
It's oh so cold outside
It's always cold outside
But never with you

(Ooh ooh)
It's oh so cold outside
It's always cold outside
But never with you

I keep trying to walk away
Still all those roads
Leads back to you
Leads back to you

Then I see you standing there
With open arms telling me
I've been here with you

(Ooh ooh)
There was never a kinder love
That I could ever forget
You just brought this kind
Of love

Chorus
(Ooh ooh)
It's oh so cold outside
It's always cold outside
But never with You

(Ooh ooh)
When the snow falls
I feel like there's no walls
Between you and me
(ooh ooh)
I wish I can come to you
I wish I could fly

Chorus
(Ooh ooh)
It's oh so cold outside
It's always cold outside
But never with You

(Ooh ooh)
It's oh so cold outside
It's always cold outside
But never with You
