

WAR is so PRIMITIVE

Where are you marching on
There's nobody around
You've got alot to lose
but your life
It's your life

Does it feel right
Does it feel right
When nobody wants
to fight no more
Does it feel right
Does it feel right
We just want to keep
Living for something
More

War is so primitive
Stop acting like Savages
War is so primitive
We've got to be more than this
oh no

Do you want our earth
To look like Mars someday
Well keep fighting like u do
And there's no place left to stay

Does it feel right
Does it feel right
to look at me for
short term gains
Does it feel right
Does it feel right
we only want to live our life our
way

War is so primitive
Stop acting like Savages
War is so primitive
We've got to be more than this

War is so primitive
Stop acting like Savages
War is so primitive
We've got to be more than this

ooh ooh ooh
ooh ooh ooh
War is so primitive
ooh ooh ooh
ooh ooh ooh
War is so primitive

War is so primitive
Stop acting like Savages
War is so primitive
We've got to be more than this
